

We do it now I say
Watch trust grow day by day
In the here and now let's start
And open up the heart

We do it now I say
Watch trust go day by day
Together we(e) are okay
We do it now I say

Let's start our new life today
In a world in which we can all live peacefully
and contentedly
Away from consumption, away from higher
further faster

When I live a good, peaceful life that all of my
people are happy with

I can let the children and next generation go
into a peaceful future
We can do it - together
Let's start today

We do it now I say
Watch trust grow day by day
In the here and now let's start

together – let 's be(e) smart

When people on earth are dis-sa-tis-fied because they are os-tra-cized or mar-gi-na-lized, our peace is in jeopardy. Let's get everyone on board - everyone is equally valuable

Pay attention to your own limits and needs, respect the limits and needs of others.

Then everyone is in good hands in a world for which we are jointly responsible, so that the next generations can live well.

Let's take a close look at what our be-ha-vior means for our home planet and our roommates here.

We can sweep up our dirt and make the planet better bit by bit with holistic solutions for all life here on earth.

Let's get started - today. This is quite simple.

Let's create real pers-pec-tives.

Let's think, plan and act together

We do it now

Now and today
